

SMARTBoard Resource Links

Sherry Sejnost and Sheila Ruh

The following are a combination of links that include lessons, tutorials, templates, and collaborative sites that will provide many resources for successfully using the SMARTBoard in your classroom.

<http://exchange.smarttech.com/>

The SMART Exchange is a community of teachers, administrators and SMART experts sharing ideas, expertise and enthusiasm to create extraordinary moments in the classroom.

<http://education.smarttech.com/ste/en-US/Ed%2BResource/>

This site includes a variety of educator resources.

<http://argyll.epsb.ca/jreed/Default.htm>

These math resources are divided into the 4 strands including number sense, patterns & relations, shapes & space, and statistics & probability.

<http://www.shodor.org/interactivate/activities/>

Interactivate is a set of free, online courseware for exploration in science and mathematics. It is comprised of activities, lessons, and discussions.

<http://www.kenton.kyschools.us/max/smartboardindex.htm>

These templates are to be used as a starting or jumping off point for you to generate your own unique and distinctly well-suited curricular activities that will create interest and ask your students to use the concepts and the skills you are teaching.
